

# Focus on Manufacturing

## Opportunities for Business Improvement

The global marketplace is constantly changing. Your competition is finding ways to serve customers faster and better with less cost. This session will help you evaluate opportunities for your company to get ahead, whether it's identifying strengths and weaknesses, evaluating new markets for sales, or engaging employees in continuous improvement.

### Participants Receive:

- Free 10-minute "discover" CoreValue Assessment
- Free walk-thru Continuous Improvement consultation

### Discussion to include:

- Enhancing your culture of continuous improvement
- Assessing quality at a grass roots level
- Determining key metrics to monitor success
- Improving business operations with new planning tools, technology, and best practices
