

COMPLIMENTARY SEMINAR:

Profile Measurement and Inspection Symposium

Introducing the **NEW** In-Sight Profiler

May 31, 2017 | Erie, PA | 1-4pm

June 1, 2017 | St Marys, PA | 10am-2pm

Join us to learn about **new** profile technologies for high-accuracy measurement and inspections. You will learn how these systems can benefit your dynamic manufacturing processes and industry best practices for setting up systems for your applications.

Bring your application with you! We will help with hands on training and evaluations.

› **Reserve Your Spot Today!**

Topics include:

- Introduction to Cognex's **NEW** In-Sight Profiler Measurement Sensor
- Industry standards for setting up and qualifying measurement systems
- Measurement system capabilities and best practices for deploying your system
- Introduction to 3D industry solutions
- Hands On Training and Evaluations
