Manufacturing ADVANCED EXPO

Showcasing the latest manufacturing technology

brought to you by

NWPA NTMA MANUFACTURING AMERICA'S FUTURE

nwIRC Driving Impact for Manufacturers

Manufacturing Advanced Expo is a collaboration between NWPA Chapter NTMA and NWIRC as an effort to showcase the latest manufacturing technology trends to manufacturers in the northwestern PA region. We are anticipating between 100 to 200 attendees at this inaugural event, an opportunity for you to make over 100 sales calls in a single day.

As a sponsoring exhibitor, you have the chance to demonstrate your products to the people who influence purchasing decisions and to those who use your products every day. Education sessions will be scheduled with plenty of exhibit time alloted between speakers to optimize your opportunities for one-on-one discussions and Q&A from new contacts and potential customers.

Here are your opportunities to get involved! Exhibit space is limited, so register quickly.

$500.00

- Vendor Table
- Company Listing w/ logo
- Featured Exhibitor Email
- Company Link on Website

$250.00

- Vendor Table
- Company Listing
