

An Introduction The Improvement Kata

Practice a pattern of practical scientific thinking to use in your everyday quest for continuous improvement.

The Improvement Kata is hitting the road- making it a perfect opportunity for manufacturing companies and educators in the region to learn and experience Kata first-hand!

Facilitator, Tom Weible, will illustrate how Kata is used in teams, organizations, and your everyday life. You'll walk away understanding how Kata can help your company develop and sustain a culture of continuous improvement and participate in a 50-minute simulation for practice and to learn how to teach scientific thinking to others.

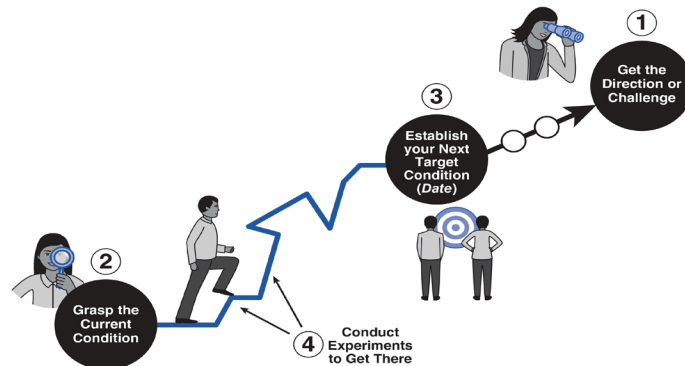

OBJECTIVES:

- Learn about the four-step Improvement Kata pattern and understand why and how ideas should be tested.
- Do some initial practice of a scientific routine used by teams and companies around the world.

Facilitator, Tom Weible
TWI Certified Instructor
