Driving Impact for Manufacturers

Please join us to learn more about the world's no. 1 collaborative robot.

Around the world, thousands of Universal Robots work collaboratively right alongside humans - with no safety guards and no problems.

- Fastest Payback in the Industry
- Collaborative and Safe
- Flexible Deployment
- Easy Programming
- Fast Set-Up

Also, join us to learn about other products that can help make your automation seamless.

Automation includes much more than just a robot. Let us help you choose which accessories will work best for your applications.

- End of Arm Tooling [Electric and Pneumatic Grippers, Suction Cups]
- 2D and 3D Vision [Bin Picking, Part Inspection, Robot Guidance]
- Custom Designed Extrusion [Bases, Stands, Guarding]
- Robot Protection [Robot Suits, Teach Pendant Covers]
- Cable Management [Cable Track for Cables/Airlines]
