

ISO 9001:2015 Internal Auditor *Virtual Training*

This virtual training will introduce participants to the ISO 9001:2015 quality management system, the auditing process, audit instruments and the documentation process. You will learn how to conduct an audit, write the audit report, and take corrective action. Using a combination of lecture, discussion, and auditing case studies participants will develop skills for identifying non-conformance and promoting continual improvement within their organization.

Upon completion of this course, participants will:

- Understand ISO 9001:2015 QMS and the underlying Quality Management Principles
- Understand the organizations products, services and processes – and how they relate to the Quality Management System
- Gain the ability to apply the principles, procedures and techniques of process auditing
- Apply the personal attributes necessary for effective and efficient internal auditing

Instructor: *Max Krug, Change Management Specialist, Future State Engineering*

Max provides operational excellence services expertise to organizations with the primary objective of improving financial and operational performance. Max has 30 years of experience in operations within manufacturing, distribution, and project management environments. He has a B.S. in Industrial Engineering from Alfred University and a MBA from St. Bonaventure University.
