

Educators Toolkit

Ideas for enhancing

Exploring the Marvels of Manufacturing

for your own class or school

Check out more ideas at
www.nwirc.org/mfgmonth

- 1 Consider having your students participate with ***Exploring the Marvels of Manufacturing***, making a submission as a class assignment or an extra-credit project.
- 2 If you are not able to plan as a class activity, be sure to provide the information for your students in case they want to participate on their own. The digital packet can also be downloaded at www.nwirc.org/mfgmonth.
- 3 Select students to read their short articles during morning announcements during the month of October and beyond.
- 4 Make videos of students reading their essays to use on the school's social media.
- 5 Initiate a competition among the classrooms at your school (or schools within your District) for the highest number of student submissions.
- 6 Establish a panel of judges at your school for evaluating the student articles, and award prizes for their creativity.
- 7 ABB's MFG Day STEAM Experience! ABB is providing tools for a 5-day STEAM Experience with their partner EdgeFactor. These multimedia tools will help educators showcase the world of manufacturing to their students using films, activities, lesson plans, templates and Best Practices Guides! Register at: <https://www.creatorswanted.org/events/abb-mfg-day-virtual-event/>

8

Reach out to a local manufacturing company to schedule a Zoom Video Session for your class to interview them or get a virtual tour.

9

The Manufacturer & Business Association's 7th Annual MFG Day Event is going "virtual" on Wednesday, October 14 – where their mission to inspire, engage and attract the next generation of manufacturers continues! Download their MFG Day APP for details on the Scavenger Hunt and upcoming educational breakout sessions to enter the contests and win prizes. Visit <https://www.mbausa.org/services-and-benefits/mfg-day/> for additional information on this exciting program geared for students from middle school through high school.
