

A close-up photograph of a hand holding a blue marker, drawing a value stream map on a white clipboard. The map consists of several rectangular boxes connected by arrows, with some boxes containing icons like a factory or a person. The background is a blurred industrial setting.

Value Stream Management Virtual Training

This introduction to value stream mapping (VSM) focuses on understanding concepts, reviewing techniques for documentation, and strategy for communicating future improvements.

Objectives include:

- Understanding what value streams are and why they are important
- Examining how value is currently created
- Defining value from the customer perspective
- Developing changes to improve customer value
- Identifying and outlining improvements for overall company performance
- Documenting and tracking value streams

6-Sessions

February 8, 10, 12, 15, 17, 19 - 2021
7:30am - 9:30am

(Zoom link emailed prior to start of class.)
