

LEARN

Basic & Advanced OSHA Compliance

The purpose of this OSHA class is to help prepare organizations in dealing with the complex area of regulatory compliance, injury prevention, and business liability. This course will pack a comprehensive scope of subject matter into a one day session for the busy professional. Some of the general topics that will be addressed include:

- How to prepare your business for regulatory compliance
- What to do when an OSHA inspector shows up at your door
- A review of the latest and most frequently cited OSHA standards
- What are the most commonly targeted items by the local OSHA inspectors
- Developing the necessary written safety programs
- Implementing the key components of a risk management plan
- Necessary checklists and compliance documentation
- Employee training requirements
