

## LEANTOGETHER™

Sustain a culture of continuous improvement

With a focus on growing people, Lean Together 2.0 is for the advancement of continuous improvement, specifically geared to support 2 second lean initiatives. Each month, learn from a subject matter expert to build upon your company's efforts and tour regional manufacturing companies for examples of success. In addition, your company will have access to an online platform for on-demand learning about the Foundations of Lean, 8 Wastes, and 5S for engaging ALL employees.

Join our next cohort starting:

### August 2023

### Monthly sessions include classroom education and facility tours

#### Communication & Conflict Resolution

Effective communication and conflict resolutions skills are critical to your personal success and for your team. Explore essential communication skills to reduce and resolve conflict, *and* work more effectively with those who have different communication styles.

#### Critical Thinking and Problem Solving

Understand how our mind works and why we think the way we do. Learn tools to respond instead of react and develop critical thinking skills to better solve problems.

#### Skill Transfer

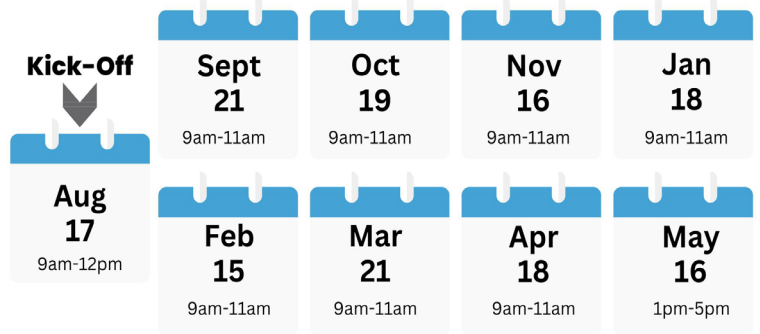

Methods for transferring skills and knowledge to and across your teams.

#### Presentation Skills

Tools and best practices to improve presentation skills.

#### Creating a Coaching Culture

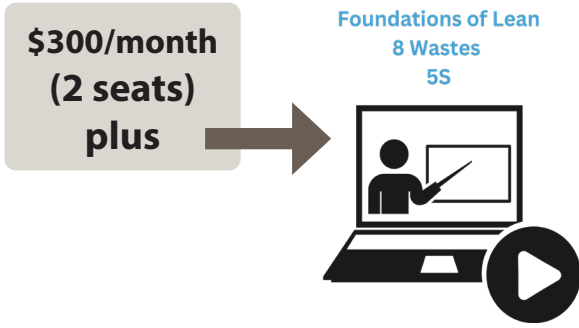

Review the difference between supervising/managing and coaching. You'll understand the benefits of coaching and how to create a coaching culture to drive your team to success.

#### Assessing Your Culture

Culture is important for attracting and retaining talent. Discover ways to accurately assess your company's culture and tips to improve it.

Access to online learning platform for engaging ALL employees!
