

Educators' Toolkit

Ideas for enhancing

Exploring the Marvels of Manufacturing

for your own class or school

See more at:
www.nwirc.org/mfgmonth

- 1 Consider having your students participate in ***Exploring the Marvels of Manufacturing***, making a submission as a class assignment or an extra-credit project.
- 2 If you are not able to plan it as a class activity, be sure to send the packet home. The digital packet can also be downloaded at www.nwirc.org/mfgmonth.
- 3 Check out the “Manufacturing Superheroes” series on our website highlighting career path stories of regional manufacturers. www.nwirc.org/mfgmonth
- 4 Celebrate Manufacturing Month (October) by selecting students to read their short articles during morning announcements or posting them to social media.
Don't forget to tag NWIRC:

Twitter (X): <https://twitter.com/TeamNWIRC>
LinkedIn: <https://www.linkedin.com/company/nwirc>
- 5 Turn Exploring the Marvels of Manufacturing into a competition among the classrooms at your school (or schools within your district) and compete for the highest number of student submissions.
- 6 Contact Tara Lawrence (tlawrence@nwirc.org), Manufacturing Talent Stream Coordinator, to connect your classroom, school or club with a local manufacturing company and schedule a Zoom session, in-person speaker opportunity, or on-site field trip/tour of their facility!

We love new ideas—let us know if you used Marvels of Manufacturing in other ways!
