

# IMPROVE

Driving Impact for Manufacturers

# LEANTOGETHER™ 2.0

Sustain a culture of continuous improvement

Join our next cohort starting:

## August 2024

With a focus on growing people, Lean Together 2.0 is for the advancement of continuous improvement, specifically geared to support 2 second lean initiatives. Each month, learn from NWIRC's lean and operational excellence specialist to build upon your company's efforts and tour regional manufacturing companies for examples of success. Apply what you learn on the shop floor during tours based on focus identified by host-company.

**Monthly sessions include  
classroom education and facility tours**

### Mini-Kaizen Events

Apply lean concepts such as: 5S, 8 Wastes, Value Stream Mapping, and Setup Time Reduction on the shop floor.

### Improvement Kata

Understand how our mind works and why we think the way we do. Learn tools to respond instead of react and develop critical thinking skills to better solve problems.

### Skill Transfer

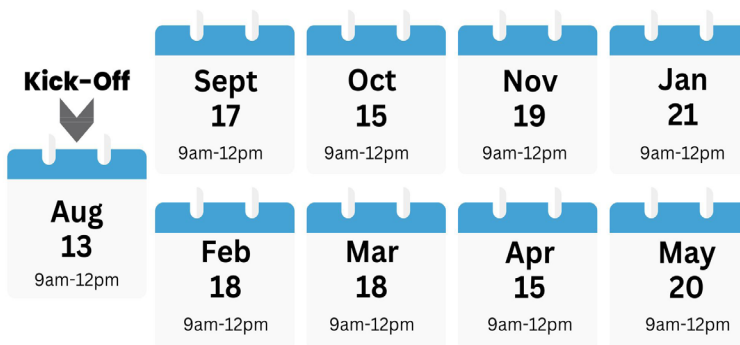

Methods for transferring skills and knowledge to and across your teams.

### Creating a Coaching Culture

Review the difference between supervising/managing and coaching. You'll understand the benefits of coaching and how to create a coaching culture to drive your team to success.

### Assessing / Sustaining Your Culture

Culture is important for attracting and retaining talent. Discover ways to accurately assess your company's culture and tips to improve it.

**\$300/month  
(2 seats)**

Space is limited!

\*May qualify for WEDnet reimbursement.

\*\*Dates are subject to change.
